

## Darwin Minister Missing Since Rescued By Japs

DARWIN, Monday.

The former Methodist minister at Darwin (the Rev. Leonard N. Kentish, B.A., B.D.) has not been seen since he was picked out of the Arafura Sea near Wessel Islands by a Japanese float-plane in January, 1943.

He was a passenger on the naval supply ship, Patricia Cam, when the vessel was bombed by a plane.

The Patricia Cam sunk and there were some casualties.

A plane alighted near the survivors and Mr. Kentish was ordered aboard at revolver point, but the others drifted to a radio post.

Mr. Kentish's wife, who lives in Brisbane, is anxious to get in touch with any former P.O.W. who may have met him.
